## VANADA WILL SPLASH INTO THE POTOMAC

### Big Steel Freighter Will Leave Ways at 2 p. m., Tomorrow

### THE THIRD LAUNCHING

**Expected That Thousands of Persons Will Attend.—Luncheon For Invited Guests.**

The giant steel freighter Vanada, 9,400 tons deadweight, will be launched at 2 o'clock tomorrow afternoon at the plant of the Virginia Shipbuilding Corporation. Mrs. H. F. Morse, wife of the vice president of the company, will christen the ship as she leaves the ways. The yards will be thrown open to the public, and it is expected that a large crowd will witness the launching.

Following the launching the invited guests will be tendered a luncheon which will be served in the commissary department.

This will be the third ship launched by the Virginia Shipbuilding Corporation. The Gunston Hall, the first ship launched now completed, tomorrow will be ready to leave the dock to be placed in commission.

The Betsy Bell, the second ship launched by this company, will be lying at the outfitting pier, within a few weeks of her trial trip.

Within the next three weeks the Chancook will be launched.

The Carraturk and Boshbish already are looming up lange. When the Vanada leaves the ways the keel will be laid for the Bellyhoe.

Already many merchants on King street have decorated in honor of the launching of the Vanada, and it is expected that flags will be flying from practically every business house on King street tomorrow.

Thousands of persons will be on hand to see the big freighter glide into the Potomac. The two previous launchings were a big success and there is every reason to believe that launching of the Vanada will be equally so. Practically all of the officials of the Virginia Shipbuilding Corporation will attend.

### MEN AND WOMEN RIOTING

**Three Policemen Hurt—Machine Guns Taken to Scene**

Waterbury, Conn., June 20.—Three patrolmen were injured, one severely, in riots growing out of a strike of 5000 men and women of several factories yesterday evening. A riot call was sounded at 6:30 P. M., calling out all police reserves, and they were rushed to the scene of the disturbances in Brooklyn, a suburb of Waterbury.

Firemen were called out and played a hose on the crowds, dispersing them temporarily, only to have them gather again later. A woman has been arrested, charged with inciting the riot.

The City Guard has taken its machine guns to the scene. At 7:30 the plot was still in progress.

### MARRIED TO ORDER TO PUT ON ILLUSION

Hagerstown, Md., June 20.—Miss Vernie Shanholtz, Martinsburg, W. Va., and John E. Souders, Baltimore, were married here yesterday under unusual circumstances. Souders is assistant manager of a street carnival company here, and Miss Shanholtz came to play an illusion act with him, but the general manager of the carnival refused his coinsent unless the couple got married.

The courthouse was closed and the clerks had gone home, but Deputy Clerk O. Jesse Stottlemyer consented to open up and issue the license, the general manager paying the license fee. The couple then left the courthouse in search of a minister to tie the matrimonial knot.

### BOY SCOUTS MEET

**Judge J. K. M. Norton Appointed Chairman of Citizens' Committee**

A largely attended meeting of Troop No. 2 Boy Scouts of America, was held at the Lyceum Hall last evening when five new members were elected. A vacancy having occurred in the office of Scout Scribe, James Bayliss was elected to that position. The following were appointed as Patrol Leaders: Scouts William Moreton; Frank Nowland and Eugene Gorman. Another patrol leader will be appointed leader.

New interest in the Boy Scout movement has been caused by the appointment of Judge J. K. M. Norton, of this city, as chairman of the citizens' committee. All citizens are urged to become associate members of the Boy Scouts, which only requires the payment of one dollar a year as dues.

The committee will in a few days begin an active canvass of the city in order to secure associate members for the Boy Scouts. The goal of the National Citizens Committee, of which the Hon. W. G. McAdoo is chairman, is to secure 1,000,000 members.

### FRESH RIOTS EXPECTED

**French Sailors do Not Seem to Know Why They Are Demonstrating**

Brest, June 20.—The demonstration of French sailors here Wednesday night and yesterday followed the landing of sailors from the Black Sea fleet who were involved in the revolt at Odessa.

The men were brought to this port on the French warship Justice and after beng landed were lodged in the naval prison at Fort Pontanoir.

At about 8 o'clock last night 200 sailors broke down the gates of barrack No. 2, paraded up Rue Siam, down Rue Dupont and attempted to rush the naval prison to release their comrades. Their attempt failed.

Reinforcements for the French infantry on patrol here have arrived and the number of gendarmes has been doubled. The streets are under close guard and at present the city is quiet enough, but another outbreak is expected.

The men engaged in the demonstration do not seem to be quite clear in their own minds as to the cause of the movement. Some told the Associated Press that the trouble was because of the arrival of the prisoners from the Black Sea, while others were under the mitaken impression that they will be ordered to the Near East, and are protesting.

### AUTO STOPS IN MID AIR

**Tosses Out its Occupants, Then is Caught on Telegraph Pole**

Wilkes Barre, Pa., June 20.—After crashing through the sides of an overhead bridge and dumping out its occupants an automobile driven by Isadore Kronblau, caught onto the cross beam of a telegraph pole and remained suspended in the air, 30 feet above the ground.

Kronblau and three others were in the car at the top of the Ashley Mountain. They had just rounded a sharp curve, when they lost control and went through the sides of a narrow bridge above the Central Railroad tracks. Kronblau and Jaco S. Williams were seriously hurt, but the other occupants escaped without severe injuries.

As the car shot through space the housing of the under machinery caught in the cross arm of the pole and it remained there until rope and tackle brought it down.

### KILLS WOMAN AND SELF

**Double Tragedy Follows Disagreement Between A. C. Penn And Boarding House Mistress**

Danville, Va., June 20.—Following the complaint that the board she afforded was poor, A. C. Penn, aged 70, shot and killed Mrs. Alice Bowman at Draper, N. C., on Monday evening and then shot himself, according to messages received from the cotton mill town yesterday.

Penn lingered a few hours and died without regaining consciousness.

The aged man had been a boarder at the Bowman home for some weeks and had latterly complained frequently. He was told that he must find another boarding house and, on learning this, he threatened to shoot Mrs. Bowman.

## GERMANY WILL SIGN THE TREATY

### Present Cabinet Will Resign to Make Room For New Ministry

### WILL FAVOR PEACE

**War Minister Noske or Herman Miller Expected to Head New Cabinet —Paving Way for Acceptance.**

Weimar, June 20.—The present German cabinet has definitely decided to resign and make room for a new ministry that can sign the peace treaty, according to authoritative information obtained today.

The new cabinet, it is said, will place itself officially on record as favoring acceptance of the terms, so that today's session of the nations assembly—scheduled to make the final decision on the treaty.—will probably be a mere formality for ratification of the new cabinet's decision.

Either War Minister Noske or Herman Muller is expected to head the new ministry. The old cabinet is said to stand eight to seven against signing.

Berlin, June 20.—An official statement, it is expected, will be issued shortly, paving the way for acceptance of the peace treaty. The statement, it is said, will point out that the allied concessions are, after all, "noticeable."

### EARL DEAR MUST HANG

**New Trial is Denied Murderer Who Boasted of Political Influence**

"I'll never hang with the protection I have from high political influences," declared Earl Dear a little over a year ago when he was convited in Chicago of the murder of Rudolph Wolfe, a chauffeur. But the recent dismissal by the United States Supreme Court of a plea for a new hearing, according to Chicago prosecutors, ends his last chane for life, and Dear probably will pay the death penalty before fall.

There has never been any question of the activity of his political friends. Numerous attempts have been made to obtain his freedom or a commutation of his sentence. But they have been without avail.

Finally Dear and his friends on the outside took the matter into their own hands. Dear and three notorious criminals obtained the keys of a guard by a ruse, broke from the Cook county jail and escaped in a motorcar which was awaiting them nearby. Dear and another murderer, since hanged, were recaptured later,

His case has been dragged through every court up to the United States Supreme Court. Only a pardon or a commutation from the Governor of Illinois can save the man who won the title of "Immunity Earl" by his boasts of political influence.

### UP TO OHIO VOTERS

**Decision on Prohibition Also Opens Way to Referendum on Suffrage**

Columbus, Ohio, June 20.—Right of Ohio voters to approve or disapprove the action of the State Legislature in ratifying Federal constitutional amendments was upheld yesterday by Judge E. B. Dillon, of the Franklin County Common Pleas Court.

The decision, unless reversed by higher courts, will permit a referendum to be held on both the Federal prohibition and woman suffrage amendments, which the Legislature has ratified.

### SLAYER DENIED BAIL

Danville, Va., June 20.—William Field, who some weeks ago shot and killed Robert S. Dedman, has been denied bail and is again in jail at Boydton, Mecklenburg county. When arraigned formal motions were made for bail, but the Commonwealth produced five witnesses to the shooting which took place on the main street of the town, and the court overruled the motion. One of the witnesses declared that Dedmon was about to take Field in his automobile on a business trip when the shooting began.

### GAME SUNDAY

**Cardinals Will Cross Bats With State War And Navy Department**

The Cardinal Athletic Club baseball team will play the State, War and Navy Department nine on the Alexandria High School field Sunday afternoon at 3 o'clock.

The Cardinals and Virginia Greys have consolidated and the members of both teams will play in games hereafter as Cardinals.

Manager "Pete" Brenner, of the former Greys, will assist the Cardinals in an advisory capacity.

### REFUSES TO FORM PARTY

**A F.. L. Rejects Proposition by a Unanimous Vote at At Atlantic City**

Atlantic City, N. J., June 20.—The suggestion that American organized labor from a political party was rejected unanimously yesterday by the American Federation of Labor in convention here.

Labor reconstruction program, which has been termed "a new declaration of independence for workmen of America" was adopted through a resolution that "labor now insists on full value and compensation for services rendered, on a basis that will enable all to enjoy the higher things of life rather than merely exist near the line beyond which we find human misery."

The convention adopted also the report censuring Congress for making "niggardly appropriations" for the Department of Labor, declaring that Congress, having given larger appropriations to the Departments of Commerce and Agriculture, "has shown that it considers the welfare of financial interests and cattle above that of human beings."

### COLLECTION OF STATE TAXES

**Auditor Suggests That Officers Wait Until Special Session of Legislature is Held**

Colection of state taxes will be deferred this year until after the special session of the legislature which has been called by the governor to convene Wednesday, August 13, and increased taxes determined and the amount added to the bills of property owners. While this will require time, it is believed that taxickets will be ready by December 1, and that the coming session will reecive taxpayers of penalty for failure to pay by the time usually fixed in the past—November 30.

C. Lee Moore, auditor of public accounts, yesterday sent the following letter to commissioners of revenue regarding the matter and suggested a course for them to follow in order to lighten their work and prepare for the change after the lawmakers have enacted a new law and provide what the taxicreases shall be.

### BALTIC PORT OF DANZIG

**Would Have Jurisdiction Until League of Nations Took Over The Task**

Paris, June 20.—The Council of Foreign Ministers has under consideration at present a plan for an inter-allied commission to administer the Baltic port of Danzig, through which Poland has been given an outlet to the sea. This commission would have jurisdiction until the League of Nations began to function and took over the task.

In its consideration of the Polish question the Council of Foreign Ministers, while planning to have Danzig administered ultimately by the League of Nations, is likely to give the Poles the maximum liberty of action on the question of the Ukrainian boundary, according to the Echo de Paris.

The Council, it is added, also is considering provision in the treaty with Austria for a plebiscite in the region of Klagenfurt, which is claimed by both the Jugo-Slavs and German Austrians.

### GIRL DIVES 1,000 FEET FROM PLANE

Atlantic City, N. J., June 20.—Major Orde Loes, expert parachute demonstrator for the British air forces, and Sylvia Boyden, English girl expert, dived 1,000 feet from the airplane of Eddie Stinson in different parachutes. They landed lightly at the air port a few hundred feet from where they had made their dive. The test was witnessed by representatives of various countries and aeronautic authorities.

## PAUCITY OF HOUSES; FAMILIES USE TENTS

### Already A Number of Families Have Pitched Tents Near City

### FREE GROUND RENT

**Erection of Houses Contemplated Will Relieve Congested Conditions It is Expected.—Big Demand for Houses.**

Soon families in this city who are unable to secure housing accommodations will live in tents owing the the fact that at present there is not a single house for rent in the city.

Already several families that endeavored to locate in this city have purchased tents and rented ground at places near the city. They propose to use the tents all summer or until some arrangements can be made whereby they can secure homes.

Capt. Fountain Beattie in conversation this afternoon with a representative of the Gazette stated that he will give free gratis ground rent for any person desiring to pitch a tent on ground he has charge of which is located close to Alexandria.

It is believed by that the early autumn a sufficient number of houses will have been erected to accommodate the number of persons seeking homes.

In addition to the houses already under construction many others are contemplated.

A large number of persons are now purchasing their own homes and real estate dealers report unusual demands for the purchase of modern sized homes. One real estate man stated this afternoon that almost every home he had for sale on his list has been sold during the few months. Never before in the history of the city has the demand for houses been so great.

### SEES RECURRENCE OF FLU EPIDEMIC

Washington, June 20.—There will be another outbreak of influenza next fall, says Dr. J. C. Perry, assistant surgeon of the United States Public Health Service. Testifying before the House Appropriation Committee, he declared:

"There is certain to be a recrudescence of that disease in the fall, and the appropriation which was made to meet the emergency in this fiscal year is practically exhausted."

Dr. Perry asked for $900,00 to continue the investigation and prevention of influenza, but it was refused. He said the Public Health Service wanted to continue intensive studies of the disease in the hope of finding some remedy.

### CHALONER BRINGS SUIT

New York, June 20.—John Armstrong Chaloner, legally insane in New York State, while sane in Virginia, obtained a State Supreme Court order here yesterday directing Tho. T. Sherman, who was appointed somyears ago to manage his property in this State, to show cause why Chaloner should not now be declared sane in New York and be given charge of his own property. The order is returnable July 8.

Meanwhile Chaloner is exempt from arrest here as an incompetent until June 26 under a Federal Court order issued recently when he came here to prosecute a libel suit.

### SHOT DOWN AT HIS DOORWAY

**Recently Married Man—Loses His Life in Protecting Bride**

Rochester, June 20.—Shot down at his own doorway by a man who called there in the guise of a friend Harry Smith, a mountain farmer, living at Hornby, Stuben county gave his last ounce of strength, after receiving a mortal wound, to the protection of Carrie Wolverton, 19 years old, his bride of a few months as the murderer burst loose the fastenings of the screen door that alone separated him from his victim and entered the house with seeming intent of criminally attacking Mrs Smith.

The victim's strength proved futile for the task, and he collapsed against the bedroom door he had closed to bar the murderer's passage; but his slip of a girl wife struggled with the man until he was glad to escape, and then, clad only in her night clothing, she ran an eighth of a mile to the nearest farm house to give the alarm.

Jady Kelly, also a mountain farmer, living near Hornby, is under arrest for the murder of Smith. Kelly denies the crime, and his story is substantiated by his wife. He was arrested on information given by the young widow, who swore that, while she could not see Kelly's face during the struggle in the dark she recognized his voice.

Mrs. Smith was asleep in a first-floor bedroom, off the living room with her husband, when the two were awakened by a knock on the screen door that alone barred entrance to the house. The frame door had been left open because of the heat of the night. Smith inquired:

"What is wanted? without arising from bed.

Its Leslie there?" replied the voice apparently referring to Smith's brother, Leslie, who often remained over night at the house.

"No," said Smith, getting out of bed and moving toward the door **way.**

As Smith reached the door and stooped out into the night to see who his visitor was, without a word being utered, he received a gunshot charge, fired at close range, in the upper part of the chest.

### ACCUSED OF MURDER

**Conductor Shot Following Hold up of Street Car.**

Charleston, W. Va., June 20.—Private "Doc" Maddox, Wagoner Ralph E. Farley and Corporal Warnie Anderson, soldiers of the United States Army, stationed at Nitro, near here where the Government erected a big powder plant, are in jail yesterday charged with the murder of John Dame, a street car conductor at St Albans. One of them, "Doc" Maddox a lad of 19, signed a written confession, telling of holding up the street car and rifling the passengers. When the conductor started to run. Farley according to Maddox, shot him.

### BEES GIVE CHASE TO SWEET AIRPLANE

Patterson, Mo., June 20.—The latest thing in airplane stories comes from the bee farm of Madden Polk, near here, and reveals how a colony of the honey makers were stampeded by an aircraft that passed over the farm carrying a cargo of flowers. It was learned after the bees had made their hurried exit that the flying machine was carrying a cargo of magnolia blossoms, and it filled the air with fragrance.

When the bees in the Polk preserve got a whiff of the human aroma they left in swarms, it being estimated that 500,000 in the fifty colonies on the Polk place forsook their hives 'en masse and went madly roaring pell-mell across the field in pursuit of the plane.

The resolution also urged that Congress take steps to curb the power of the courts in issuing injunctions against strikers.

## "ALL MEN ARE CRAZY"

The psalmist of Israel says all men are liars, and now a modern declares all men are crazy. That all human beings suffer from various forms of psychi disorders, which can be classed as disease types of insanity, was the startling assertion of Dr. E. S. Southard, of Boston, in addressing the American Medico-Psychological Association, whih opened its seventy-fifth annual meeting this week in Philadelpha.

## MAN AND WIFE

The Washington Herald contains the folowing today:

"We believe that a wife should know enough about her husband's business to be able to manage it, or at least watch with understanding the management of it, if he dies, so we hold that the husband should know enough about the rearing of children, and the work of the house, to be independent if his wife dies, or goes home to mother, or decides to tour for suffrage. The average man is a pitiful sort of a boob when left alone with the children. And there is no excuse for him not knowing where the safety pins go in the clothes of little brother, or where the flour bin, is, or what the chain dish cloth is on earth for. A man can learn to cook his own meals in much less time than it takes to master golf, and washing dishes is not much harder than going fishing. Indeed the husband that can put on and take off the family wash, and who kens the distinction between boiling the white clothes and not boiling the colored clothes, may easily save himself a lot of grief, and several big round ten dollar pieces. The monotomy of housework is what galls, but for a short season the job is not unpleasant. The husband who can make bread and turn out a batch of cookies, and achieve a custard pie with a decent bottom crust, has the edge on his brethren, who eat from a can when their wives go to the seashore. There would be fewer divorce courts if the man knew enough about the tedium of constant keeping house to appreciate the wife's ocasional need for a short vacation. The man who can once a week take charge of the evening meal and leave the pantry as he found it besides, will be a happy husband, and the wife who can understandingly sit on her husband's job will be a happy wife."

Rev. Henry Ward Beecher, one of the mostprominent of American clergymen, died in 1887. At that time the newspapers published many interesting incidents in the life of the famous preacher, among them chapters on his early life and his fight against poverty. At one time Beecher had charge of a small church in a sparsely settled section in the west. His parsonage was a log house. His salary was meagre, he could not afford to employ help, and when his wife was in confinement he cheerfully washed the clothes of the family, and performed all culniary and other services until his better half got on her feet again.

## MUST MAKE THEIR CHOICE

The terms of peace, final and unalterable, assessed upon Germany as a beaten nation, have been delivered to her representatives in Paris. Every concession has been made. The issue is of peace or the grim consequences of refusal. That is Berlin's alternative.

As the New York World says, "In the face of this situation German statesmen must drop at last their pretense that they have been negotiating peace with the Entente as equals. Their protests have amazingly ignored the hard fact of conquest. The hours are not many within which Germany must bow to the terms imposed upon her or invite occupation. It is a hard alternative; a bitter awakening for a people misled by pratings of victory. Far more merciful than the fate they had prepared for others, theirs is still a fate graved by the sword-point; and this they must now know. Let the German people reckon as they will with any at home who have deceived them. In a very little while they must make their choice between peace or war upon the terms submitted."

## MEXICO A PEST HOLE

When American troops moved across the Rio Grande and dispersed a so-called army of Mexicans they did precisely the proper thing. The fighting around Juarez had grown intolerable to the citizens of the American town of El Paso. American property had been damaged and American lives had been endangered. To drive off bandits and border raiders various incursions into Mexico frequently have been made, hence the movement on Juarez was no precedent. It was on a larger scale than usual, that was all.

It so happened that the men under the control of Villa did the shoting—or presumably so—into American territory. It was his forces, therefore, against whom our own troops proceeded. But, as the Philadelphia Inquirer says, "it must be plainly understood that the United States cannot play favorites. If the Carranza regulars give offense, they must be treated precisely as were the Villistas. Truth to tell, there is little to choose between the opposing sides. Mexico is a pest hole, and surely the time has come to insist that it shall be cleaned up. We have been engaged in bringing to a victorious end the war which involved most of Europe. There was some excuse while it lasted for inactivity in Mexico. But there is no longer an excuse for leniency. Mexico should be informed that henceforth she will be expected to perform her international duties in every respect—or take the consequences."

## HAMLET FOR THE GERMANS

While Wilhelm was in the midst of his war we were electrified by the information—supplied by Karl Rosner, perhaps—that he was not too busy to give one facet of his many-sided mind to the advancement of literature, and that he contemplated fathering a revised, and extra de luxe, edition of Shakespeare's works. We do not know how far Wilhelm's scheme has progressed, but we are wiling to help. So we have taken Hamlet's soliloquy and remodeled it, to bring it up to date, to make it more easily translatable into German, and to make it fit particularly a present German mood. Have at you!

To sign or not to sign? that is the question:
Whether 'tis nobler in the mind to suffer
The slings and arrows of outrageous fortune,
Or to take arms against a sea of troubles,
And, by opposing, end them? Ja! but how?
To die? Ach nein! To sleep, and say we end
The heart-ache and the thousand natural shocks
Our State is heir to? 'Tis a consummation
Devoutly to be wished. To sleep? Ach! ja,
To sleep! perchance to dream—ay, there's the rub!
For in that sleep of death what dreams may come
Of Foch and Yankees numberless and wild,
And Bolsheviks and vixens here at home?
These make us rather bear those ills we have
Than fly to others that we know not of.
Thus conscience doth make cowards of us all
And thus the native hue of resolution
Is sicklied o'er with the pale cast of thought
Ach! Himmel! what to do? etc., etc.

This is but a rough hint of the possibilities which will readily suggest themselves to the superior German intellect.—((Philadelphia Record.

## TO THWART "REDS"

New York, June 20.—Ten regiments of the New York State Guard demonstrated last night what they could do by way of protecting the city in an emergency, when they answered a test mobilization call and quickly threw cordons of armed guard about public buildings, power houses, bridges, car barns, subway stations, public utilities and the homes of prominent citizens.

Automobile trucks, filled with armed men, dashed from armories to spots theoretically held to be in danger and the Guardsmen carried out the practice drill so grimly that in many quarters it was believed that they were to remain on guard duty to protect the city from "Red" outbreaks.

This belief was heightened by the secrecy thrown about the proceedings Colonel Hayes, of the Seventh Infantry, announced that two batalions of his men had been sent out "to guard public property" and that the orders, which were secret, specified no date for their return.

The realism given the drill was strengthened by the fact that ammunition was issued to the men. Newspapermen were barred from all armories.

## Now Is a Good Time To Drive Out Catarrh

**The Trouble Is In the Blood.**

Summer catarrh, with its nauseous discharge, stuffed up glands, difficult breathing, and summer colds, is bad enough, but the worst of it is yet to come if you neglect to check the growth that is forming to attack you with ten-fold greater power during the winter.

That's why it is so important to treat catarrhs and other blood disorders with S. S. S. during warm weather, and thus free the system from all impurities.

It is now an established fact that catarrh is in the blood and that lotions and salves do not give relief. The experience of others has proven that S. S. S. strikes at the very root of the trouble and eliminates it. Waste no time in this matter, for it is of the utmost importance. Write to our Medical Advisor about your case. Address Swift Specific Co., Dept. 53, Atlanta, Ga.

### TO SIGN OR NOT TO SIGN

**Final Decision Will be Taken Tomorrow at Weimar, Berlin Hears**

Berlin, June 20.—The Germar National Assembly will make its final decision on the peace treaty Saturday according to private advices received here from Weimar. In all probability, it is said the Assembly will decide to order that a plebiscite be taken.

The German peace delegation is one in backing up Count von Brockdorff-Rantzau in his opposition to signing the peace conditions, according to the correspondents of Berlin newspapers at Weimar.

A memorial prepared by the delegates on the train from Versailles demands rejection of the terms. The "hostile" tenor of the reply, it is argued in the memorial, simplifies such action, and, it is said, unless Count von Brockdorff-Rantzau, succeeds in persuading the Cabinet to his view, he and the entire delegation will withdraw and he will resign from the Cabinet as Foreign Minister.

If the German National Assembly orders a plebiscite on the peace treaty Saturday the voting will have to be done so that the German answer can reach the Allies in Paris by 6:49 P. M., Monday, Paris time, unless the Germans should request, and the Allies grant, a further extension of time in which to answer.

Coblenz, June 20.—The concentration of American, British, French and Belgian troops, begun by order of Marshal Foch, preparatory to advancing further into Germany, will be completed Saturday, when several hundred thousand Allied soldiers will stand ready to march toward Berlin if the Germans do not sign the peace terms.

Artillery and great trucks carrying various kinds of war material are being moved across the Rhine at Cologne, Coblenz, Mayence and other points within the occupied area.

In the American area there was marked activity yesterday, particularly among the First and Second Divisions, which are holding the bridgehead. On the left bank of the Rhine the Third and Fourth Divisions completed minor details for advancing if the word comes to go ahead.

The Fourth Division, which had been ordered home several weeks ago and had turned in all its equipment, is being re-equipped for possible action.

Paris, June 20.—Advices received in American Peace Conference circles in Paris from Weimar indicate that there may be a change in the personnel of the German peace delegation, and that a short extension of the time limit for signing the peace treaty may be requested by the Germans, but that the Germans will sign the treaty.

## WILSON IN BELGIUM

**He Calls on Mercier and Appears Before Deputies**

Brussels, June 20.—President Wilson, who reached the Belgian capital Wednesday night after a day's trip from the border, which took him through the districts devastated by the war, began the second day of his visit to Belgium yesterday morning by motoring to Charleroi with King Albert. The King wished to show the American Executive the destruction wrought by the Germans in the mines at Charleroi and supply him with documentary information of the whole sale and systematic destruction practiced by the Germans.

The President was not accompanied on the Charleroi visit by Mrs. Wilson, who was somewhat fatigued after yesterday's trying journey.

A luncheon at the American legation, the appearance of the President before the Belgian Chamber of Deputies and his reception by Cardinal Mercier at Malines, were a few of the features on today's program.

The President and King Albert set out on their trip to Charleroi at 9 o'clock. They were accompanied by M. Jaspar, the Minister of Economics, and a numerous suite.

On stepping out of the Palace yesterday morning the President found several thousand persons assembled there who clamored for a speech. He responded with his first public talk which was confined to a few words.

"My friends," said the President, "in coming here personally I have merely followed my own heart and the heart of the American people toward Belgium."

In the Palace the President had met all the members of the Belgian cabinet and Cardinal Mercier. By calling first, the Cardinal offered a diplomatic route for the President's call upon him at Marlines yesterday.

The general council of the Belgian Labor party has addressed a message to President Wilson, in which it says:

"The Labor party repudiates any peace of violence and awaits the reign of a definite peace assuring the sovereignty of labor, and the triumph of President Wilson's principles."

## GIANT SUN SPOT MEASURED

**Disturbance Estimated to be 45,000 Miles in Diameter**

Charlottesville, Va., June 20.—The great sun-spot near the center of the sun was measured yesterday morning at the Leander McCormick Observatory, at the University of Virginia. The whole area of disturbance is roughly a circle 45,000 miles in diameter, while the great central spot is now about 28,000 miles long and 5,000 miles broad at its wildest portion. This makes it one of the largest single spots seen for a long time. It can be easily seen just below the center of the sun with the naked eye, if a dense photographic plate or some pieces of heavily smoked glass are used.

Spots of this size are of rare occurrence. With the telescope, 16 smaller spots are seen in the same area with the great one, and scattered over the sun's surface are five other groups with 42 more spots. This means that the solar surface is in a very disturbed condition, considering that we are now three years past the time for normal sun-spot maximum.

## BARRED FROM EMPLOYMENT

**Burleson Declared by Chief Clerk Not to Have Been Influential in Case**

Striking telegraphers of the Western Union and Postal telegraph companies are barred from obtaining employment in any government department, under a ruling of the Civil Service Commission, which Chief Clerk Edward D. Batchelder of the War Risk Bureau to two or the strikers yesterday.

S. J. Small, former international president of the telegraphers' union, and Clyde L. Cox were the strikers denied employment.

Following the incident at the War Risk Bureau, the statement was issued by Small:

"In order to prove beyond question that President General Burleson is using his influence as a governofficial to prevent Western Union and Postal telegraphers who are on strike from obtaining employment elsewhere, I myself, accompanied by Clyde L. Cox, (a returned soldier, formerly employed by the Western Union, applied at Room 2, Arlington Building, this afternoon, stating that we wanted employment as typists, adding that we were experts, having been employed formerly as telegraphers.

"Are you strikers?" asked Mrs. Bailey, secretary to Chief Clerk Batchelder. A reply in the affirmative brought the information that we could not be employed unless we furnished a release from the Western Union. A request to see the chief clerk was denied.

"Mr. Cox produced his army certificate of honorable discharge, saying "If it is found impossible to procure a letter of release from the Western Union, will these papers help any?"

"No was the decisive reply."

Mr. Batchelder, informed of the incident, denied emphatically that any rule or order had been issued to his department that no striking Western Union workers be employed.

He said Postmaster General Burleson has not attempted to influence either the Bureau of War Risk Insurance or any other government department, as alleged by Small, to refuse employment to strikers.

When People Wait

Waiting is one of the most profitless things in the world, and waiting at the telephone is almost like sitting still with your eyes closed — the time seems so much longer.

To busy people a short wait seems magnified and correspondingly unprofitable. You can help to lessen such waits for those who call you by answering your telephone promptly, and at the same time protect yourself against lost calls—for the other person often "hangs up."

### WIFE TOO BEAUTIFUL
**Constant Attentions From Other Men Have Humiliated Him, Husband Declares**

New York, June 20.—Because his wife is so beautiful that she is the constant recipient of attention from other men, William Bode seeks a legal separation from her. In his complaint, filed in the Supreme Court, Bode says his wifes admirers have driven him to distraction, have caused him many sleepless nights and that he is now a victim of insomina. She was served with summons and complaint in the action of 709 West One Hundred and Sixty-ninth street.

According to the plaintiff, he married the defendant in June, 1911, and they have one child, Walter, aged 6 years Prior to May of last year, Bode says he lived in harmony with his wife and then she started to have visitors at the apartments they occupied in One Hundred and Sixty-ninth street. He mentions one in particular, Hans von Kienitz, who called frequently upon his wife while the plaintiff was ill in a Butler, N. J., sanatorium.

When Mrs. Bode was ill in a Lakewood hospital her masculine admirers continued to call upon her. Bode alleges, and showered her with presents of costly flowers. He alleges she appeared to show a marked affection for these outsiders to the exclusion of himself and as a result he has been greatly humiliated and degraded.

### UPHOLDS STATE BODY
**American Federation of Labor Allows Action Taken at Session in This City**

The attitude of the American Federation of Labor, in annual convention in Atlantic City, toward negro union men coincides with action taken by the Virginia State Federation of Labor at Alexandria recently. It was this action that resulted in repudiation of and withdrawal from the state federation by the machimists, moulders, typographical and clothing clerks unions of Richmond.

Excerpts from the proceedings of the national convention follow:

"For the first time in the history of the American labor movement, the economic brotherhood of both the white and black toilers was given consideration. More than that, the convention voted unanimously to admit the 12,000,000 negro workers of the country to equal membership of all international unions and to grant separate charters to negro organizations. The influx of southern negroes into northern industries and the increasing employment of negroes in southern industries make this decision by the American Federation of Labor the most important step it has taken in years, in regard to the negro."

### PARSON IN TOILS
**Validity of Several Hundred Marriage Hangs on His Fate.**

Charlestown, W. Va., June 20.—H. J. Hill, known as "the marrying parson," was arrested here and the validity of several hundred marriages hangs in the balance. Eighteen months ago he was inhibited by an injunction from performing the marriage ceremony. It is said to have been his habit to hang about the court house and accost couples coming from the County Clerk's office with marriage licenses, asking for the job of marrying them. The practice became so obnoxious that an injunction was secured.

Now it is charged that for several months he has been secretly plying his old vocation, performing the ceremonies in a hotel. Before he married couples in the office of the county clerk. It is charged the injunction takes away his license and the several hundred couples he married are not legally wed.

### CLASH ON RESOLUTION
**Senator Williams Tells Republicans That They Have No Brains**

Washington, June 20.—Adoption of the Knox resolution regarding the League of Nations and the Peace Treaty would be interpreted as an uncalled-for effort by the Senate to dictate to the Peace Conference, Senator Thomas (Democrat) of Colorado said yesterday in oposing the measure.

The Colorado Senator declared the proposal that the Senate declare itself now against accepting the League as intertwined with the Peace Terms was improper and unwise.

Before Senator Thomas spoke Senator Spencer (Republican) of Missouri, who had not previously indicated his views regarding the League of Nations, introduced a resolution proposing that the Senate declare that under any league plan adopted application of the Monroe Doctrine must be reserved entirely for national determination. The resolution went over without action.

Senator Williams (Democrat) of Mississippi challenged any Republican Senator to deny "that the Foreign Relations Committee had been stacked against the League."

The challenge started a partisan clash so heated that Vice-President Marshall repeatedly admonished Senators against breaking the rules.

Senator Moses of New Hampshire, a new Republican member of the Committee, said his selection against the President only in the sense that he is a Democrat and I am a Republican."

"No", shouted Senator Williams. "you have stacked it against the hope of world peace as well as against a Democratic President.

Senator McCormick (Republican), Illinois, declared it might also be said that "the Peace Commission to Paris was stacked with Democrats ready to bow to the will of the Chief Executive."

Senator William replied that the Paris Conference at least had done its work, while Republican Senators through the Knox resolution were "asking for time to think, when, if you had any capacity to think at all, you'd have thought long ago."

## To Our Patrons

Alexandria, Va., June 2, 1919.

In line with our progressive banking methods, and to meet the demands of our patrons, we are installing on July 1st, an up-to-date Safe Deposit Department, under the personal supervision of one of our officers.

This has been made necessary from the fact that a large number of our depositors owning Liberty Bonds and other securities desire a safe place for their keeping.

It is our plan to enlarge the number of Safe Deposit Boxes, and make a rental charge to meet the operating expenses of this Department. This charge will become effective July 1st, 1919, and a bill will be sent out at that time to the holders of boxes, and if any desire to make any change we will be glad to have them call before the bills are rendered for the ensuing year.

### BANKERS FAVOR LEAGUE

**Wooley Tells Them Return of Roads Means Higher Prices**

Old Point Comfort, Va., June 20.—The Virginia Bankers' Association yesterday adopted a resolution endorsing the league of nations and calling on Virginia representatives in Congress to support it to the last at its annual three day convention here.

"Invisible Tariff," was discussed by Francis H. Sisson, of New York, in which he declared foreign countries, especially Europeans, are short of gold, and that the United States will have to bolster up their credit by accepting their securities.

President G. E. Vaugh, Lynchburg, in his annual address, painted a bright future for the banking industry of Virginia and the whole of the United States.

Return of the railroads to private operation during the readjustment period would occasion a necessity for increased freight rates that would mean a rise in prices in this country "the spex of which no man could predict."

"Isn't it far sounder economics," said Mr. Woolley, "to take care of any deficit from carrier operations out of the Natinal Treasury, whose coffers are replenished through taxes levied where they can best be borne, than to force by their return an increase in rates?"

The opinion is held by railroad officials, generally, said Mr. Woolley, that rate increase at least 30 per cent would be necessary upon return of the roads. This, he declared, would mean another swing through the "vicious circle" of mounting prices, estimating that such a rate advance would be reflected "fourfold" in the price of the finished commodities to the consumer.

Officers for the ensuing year will be nominated today. R. G. Vance, of Waynesboro, vice president, is being prominently mentioned for president.

The association named delegates to the national organization and indorsed the special session of the Virginia legislature, called to match the Federal road appropriation.
